FAQs

What's the process for booking a photoshoot?

After booking, you'll receive a contract and preparation checklist. Shoots usually take 1 to 4 hours. Fully edited photos arrive via private Dropbox link, and payment is due upon delivery. Communication is available by phone, email, or text.

Do I need to be there during the photoshoot?

Not necessarily. About 70% of properties I work on are photographed without the owner or agent present. You're welcome to be there if you'd like, or you can simply provide a lockbox code for access.

Do you offer staging services?

I don't offer full staging services, but I will make small adjustments in the space to improve photo composition. I will remove imperfections in editing when it enhances the final image without changing the integrity of the space.

Who owns the copyright to the photos?

As is standard in real estate photography, I keep the copyright to all images. You are granted a license to use them for marketing and listing the home through the sale of the property. Expanded usage rights are available if needed.

I take immense pride in the quality of my work and the satisfaction of those I work with. My approach to photography is thorough and meticulous, ensuring that every aspect of your project is handled with the utmost care and attention to detail. I firmly believe in delivering the best possible results, without cutting corners or compromising on quality.

If you have any questions, please get in touch with me and I'll be happy to help. I look forward to working with you!
